EDUCATION

Datta Meghe College of Engineering (University of Mumbai)	2023-2027
B.E Information Technology	7.12 CGPA
K.J. Somaiya Jr College of Science and Commerce	2023
HSC	60.40%
Dharmveer Sambhaji Vidyalaya	2020
SSC	92.40%

SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Backend Technologies & Frameworks:** FastAPI, Flask, Node.js, Express.js, REST APIs
- **Authentication:** JWT, Refresh Token Rotation, OAuth 2.0, RBAC, Rate Limiting
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Caching & Tasks:** Redis, Celery
- **Cloud:** AWS S3
- **Frontend Technologies:** React.js, HTML, CSS
- **Tools:** Git, Github, Postman, Swagger/OpenAPI, VS Code, IntelliJ IDEA

PROJECTS

Smart Agro Advisor | MERN Stack, AI/ML, Flask, MobileNetV2 ([GitHub](#))

1. Built a smart agriculture platform leveraging machine learning to diagnose plant diseases, recommend suitable crops and fertilizers, and deliver actionable insights for efficient and sustainable farming.
2. Trained a MobileNetV2 plant disease detection model on PlantVillage dataset (38 classes), integrated via Flask microservice into the MERN stack backend.

CloudVault API | FastAPI, PostgreSQL, Redis, Celery, AWS S3, JWT ([GitHub](#))

1. Built a scalable cloud storage REST API with JWT authentication, refresh token rotation and AWS S3 integration.
2. Implemented folder/file management, soft delete & restore, sharing with RBAC permissions, Redis caching and Celery background jobs.
3. Added structured logging, cleanup jobs, rate limiting and REST APIs documented with OpenAPI/Swagger.

INTERNSHIP EXPERIENCE

Mernix Consulting ([certificate](#)) | Web Development Intern July 2025 – August 2025

- Developed a quote generation platform that retrieves and displays categorized motivational content through API integration.
- Built a real-time currency converter supporting multiple international currencies with dynamic exchange rate calculations.
- Created a secure student authentication and enquiry management system enabling user registration, login, and doubt submission functionalities.
- Developed an acronym lookup application that stores and retrieves abbreviations, full forms, and historical records through a database-driven architecture.

CERTIFICATIONS

- JavaScript MERN Stack
- MySQL
